WORK EXPERIENCE

Bytelabs Technologies, Ibadan, Nigeria

Multi-service Fintech platform for all financial services

Software Engineer

09/2022 – Present

- Designed and implemented a new dashboard interface that reduced user onboarding time by 30% and increased user retention by 15%.
- Optimized frontend performance by identifying and addressing bottlenecks, reducing load times, and improving overall responsiveness.
- Played a key role in the onboarding process for two other fintech companies utilizing the Fintech as a Service (FAAS) platform, resulting in a 50% reduction in integration time and a 20% increase in client satisfaction ratings.

Stealth Startup, Texas, United States

Revolutionizing the study experience with AI powered Study Buddy.

Software Engineer Remote,

07/2023 – 12/2023

- Led a 4-member team in the development of both mobile and web platforms for the AI-powered study buddy application.
- Oversaw the full software development lifecycle, from project planning and architecture design to implementation, testing, and deployment.
- Collaborated with backend developers to design and integrate APIs, ensuring smooth communication between the frontend and backend systems while meeting UI/UX standards.
- Conducted regular code reviews, provided technical guidance, and mentored team members to enhance their skills and foster a culture of learning
- Monitored performance metrics and user feedback to identify areas for improvement and implement iterative enhancements to the platforms.

DHELC Business Solutions, Ibadan, Nigeria

Specializes in mortgages that help customers refinance homes

Software Engineer

06/2021 – 09/2022

- Implemented updates to web applications based on feedback from integrated analytics, that improved user experience by 27%.
- Integrated decentralized identity systems and authentication protocols, such as DID (Decentralized Identifiers) and OAuth, leading to a 50% enhancement in user privacy and security.
- Supervised technical support activities for network components, which helped improve problem-resolution capabilities by 93%.
- Conducted spot-checks by speaking with 200+ community members to find out if issues were resolved, gathering market intelligence, which helped maintain a 57% competitive edge.
